

Shield Anchors

Yellow

Shield Only

CONCRETE BRICK STONE

Suitable for attaching a variety of fixings with metric threads such as hooks, eyes and studs.

- A three segmented expansion anchor
- Torque controlled

SHA01

Projecting Bolt

CONCRETE BRICK STONE

The projecting stud allows the fixture to be positioned into place and then fastened secure.

- Torque controlled
- Stud Grade 5.8

PAK47

Loose Bolt

CONCRETE BRICK STONE

Ideal for fixing through the shield once the shield has been installed into substrate.

- Torque controlled
- Bolt Grade 8.8

MFT = MAX FIXTURE THICKNESS

PAK47

NB: The tensile load tests are based upon the use of 8.8 strength bolts. However, the 'Projecting Type' are supplied with 5.8 strength bolts. This should nevertheless not unduly effect the performance of the anchor, given that this is taken into consideration when selecting the product. Please consult our technical department for further advice. Installation Note: Fix in centre line of brick 35-40mm from ends and avoid top 3 courses, edge bricks, part bricks and mortar joints. Suitable in solid brickwork with sound mortar joints only up to M12 bolt diameter.
